Questions about floodplain maps? Click here to e-mail your questions, or call the District at 713-684-4000.

While the floodplain data that is shown on the map is the same, this map is not an official effective FEMA Flood Insurance Rate Map (FIRM). The TSARP Interactive Mapping Tool is for information purposes only. For an official flood zone determination please contact your insurance agent or floodplain administrator. The map may not be 100% accurate in locating your address. Please visit the FEMA Map Store to create a FIRMette which is an official FEMA FIRM.
